30th March 2023

Dear Parents and Carers,

Re: Year 9 Spring Report

Today we will be sharing your child's progress report from Kelvin Hall School. The current attainment percentages are used alongside student work to guide us in securing and improving outcomes for students to make sure they reach their full potential.

The report shows each subject your child is studying, their target grade, their current attainment percentage, their predicted grade, and a comment about their progress. The report uses colour and comments to show how much progress has been made in each subject.

Target Grades

The target grades shown for your child in their subjects are decided based on their GL Assessments (Including CATS) which were completed in Year 7. These results are compared to National progress data for students with comparable results and the average grades these students attain at the end of Year 11. These targets show the minimum 'good progress' grade your child should be aiming for in that subject for the end of Year 11.

Progress Comments

The progress comments shown on the report compare where your child's current attainment is in comparison to where it needs to be for them to meet their target grade.

If the comment is blue, they are on track to achieve more than 'good progress' by the end of Year 11. This is very good or excellent progress. They are likely to achieve this if they continue to attend lessons every day and make a good effort in their learning.

If the comment is green, they are on track to achieve 'good progress' by the end of Year 11. This is good progress. They are likely to achieve this if they continue to attend lessons every day and make a good effort in their learning.

If the comment is yellow, they are not on track to achieve 'good progress'. This means they are still working towards their 'good progress' target. They can improve this and get back on track if they attend lessons every day and increase their efforts in and out of lessons.

Yellow comments suggest they have not yet mastered the necessary skills and knowledge to achieve good progress in the future.

The best thing students can do to improve their progress is to attend school, attend lessons, act on feedback from their teachers, and prepare for any future subject assessments.

Our teachers are uploading all of their lesson resources onto Google Classroom for students to use outside of lessons and during any times at which students may not be able to attend school. There is also a list of other resources and sources of information at the end of this letter.

If you have any questions or concerns about the report, please contact your child's year leader or the relevant subject teacher.

Yours sincerely,

Mrs Lauren Piercy
Deputy Headteacher
Kelvin Hall School
